Library Will Move To Civic Building

The executive board of the Pahokee Chamber of Commerce at a meeting in the Chamber office Monday night discussed the traffic bottleneck at the intersection of Lake Avenue and Bacom Point Road in the downtown business section of the city. It was pointed out that directional markings for through traffic is not clear at this intersection and state officials will be contacted to determine the best means of improving the situation.

It was voted to sponsor the Florida Products Festival locally with a display in the Chamber office, Feb. 14-23 and to distribute posters among local business houses to publicize the festival. It was also voted to purchase 12 new trash containers for streets in the business section, these to be set up immediately and as many more to be purchased at a later date.

Plans were discussed for the annual membership drive which will be held in March under the direction of Louis Gold and his membership committee.

Free Chest X-Rays Available Feb. 12

Beginning February 12, free chest X-rays will be provided by the Florida State Board of Health, Palm Beach County Health Department, and Palm Beach County Tuberculosis Association. Every local resident over 15 years of age should avail himself of this important free service.

Last year, 125 new cases of tuberculosis were discovered in this county. There are presently 111 known active cases. Latest information reveals 349 known inactive cases. More cases of tuberculosis are being found than ever before, despite rapidly declining death rates. Eighty-four persons from Palm Beach County are now in state TB hospitals, 13 of these were admitted in January of this year.

Complete cooperation of the public is needed in order to continue to make progress against the ravages of tuberculosis. Tuberculosis kills more people in Florida than all other infectious diseases combined. In 1955, in Palm Beach County alone, 11 deaths were reported.

Avail yourself of this chest X-ray service. It costs you nothing but a very little time and offers protection to you, your family, and your community. Certainly you should do your full part toward routing an enemy which is a danger to all.

Board Continues Efforts For 4-Year College In County

County Commissioners this week were continuing their efforts to get clear title to the Boca Raton Airfield from government agencies in order that the land can be turned over to the state as a site for a 4-year college.

The board this week, authorized preparation of a resolution to federal agencies, asking the government to give up its title to airfield lands and return the property to the Town of Boca Raton. Both the Civil Aeronautics Authority and the Airforce are interested in the property.

The commission again voted to make its staff available for helping clear the title and declined to make funds available for special help because of county budget restrictions.

In other actions the commission: Faced that a state road department survey reported installation of a traffic blinker at 10th Ave and Military Trail at Lake Worth, is unwarranted. The state suggested a system of signs at the intersection.

Heard a report from Asst. Co. Engineer George Frost on the organization of a state-wide beach erosion group. Serving on the organizational committee is J. M. Boyd, town manager for Palm Beach. County Attorney Harry Johnston is chairman for the group's legislative committee.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Discussion of a possible transfer of the county's criminal court from the court house to the Datura St. office building, brought a protest Monday from Attorney Sidney Catts.

Catts appeared before the county commission to urge the board to keep all courts in the court house. The commission plans the addition of another story to its office building on Datura St., and there has been some discussion of taking the entire criminal court section from the court house.

Catts said he did not come to criticize the board and added he realized the tremendous growth of the county was causing hardship in finding adequate office space.

"Everything is bustin' at the seams," Catts declared.

The attorney suggested that adequate parking facilities could be made available if the commission would tear up the courthouse lawn for a parking lot.

Attorney Paul Potter, chairman of the bar association's court advisory committee, asked that before a final decision was made, that the committee be allowed to appear before the board.

Commission Chairman Kenneth Foster said at the present time, only funds for an additional floor are available and that no money has been budgeted for building new court rooms on Datura St.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Vera Miles got off to a slow start in Hollywood, because the studios thought she was difficult to cast. Two studios which had her under contract, dropped her without assigning her to a single film. Then Paul Henreid cast her as the ingenue in "For Men Only," and Miss Miles' career in the movies and on television has been going great guns ever since. Shortly after the release of "For Men Only," she was signed for "The Rose Bowl Story," in which she again played an ingenue. Again she clicked. Warner, after screening this film, signed her to a contract. While at the Burbank lot she played in only one film, "The Charge At Feather River," but her role of a white girl who had been raised by the Indians and taught to hate her own people was significant in her career in that it lifted her from the sweet ingenue class. Next, Alfred Hitchcock wanted her immediately for the lead opposite Ralph Meeker in a film for his new TV series. She was rehearsing for a Lux Video Theatre show in June of 1955 when her agent phoned to tell her to meet him at John Ford's office during her luncheon break. The director had seen her the night before on TV and thought she might be right for a feminine lead role opposite John Wayne in a picture about to go before the cameras. She landed the role and clicked real heavy in the picture. Yes, Vera Miles got a slow start but she is on her way now and nothing can stop her. See you at the movies—Mal.

Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do *more* than save through Payroll Savings. You *invest* your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. *That means a return of up to 80% more than you originally paid.*

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

For the big things in your life, be ready with U. S. Savings Bonds

Christian Science Group Of Canal Point

The fact that all things are possible to God will be emphasized at Christian Science services Sunday in the Lesson-Sermon entitled "Spirit."
 Luke's account of Christ Jesus' healing of the "woman having an issue of blood twelve years" (Luke 8) will be included in readings from the King James Version of the Bible.

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (182:32-4): "The law of Christ, or Truth, makes all things possible to Spirit, but the so called laws of matter would render Spirit of no avail, and demand obedience to materialistic codes, thus departing from the basis of one God, one lawmaker."

The Golden Text is from II Corinthians (3:17): "Where the Spirit of the Lord is, there is liberty."

U. S. CITIZENS

Mr. and Mrs. William Van Zonneveld, former Pahokee residents now living in Vero Beach, celebrated the receiving of their final U. S. citizenship papers with a dinner party at their home in Vero Beach Sunday. Among the guests were Mr. and Mrs. H. J. Anderson of Pahokee.

The cards, food, flowers, particularly the prayers and words of encouragement given me will always be held in grateful remembrance by me and my family. May God's richest blessings rest upon each and everyone of you.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Cabinet Okehs New College Site

TALLAHASSEE—The Cabinet Board of Education last week approved a 1,250-acre site just west of Boca Raton as the location for a proposed new university. The four-year university will take over the Boca Raton airport near the town known the country over for its Boca Raton Hotel and Club.

The Cabinet made it plain, however, it was merely approving a site and not recommending an immediate start on establishment of a school. This differs considerably from the Tampa location selected for a West Coast university.

Dr. Ralph Miller of Orlando, chairman of the Board of Control said the Board was anxious to proceed with acquisition of sites because land is getting scarce and property value is increasing. The Cabinet told the Board of Control to proceed at its convenience to investigate and recommend a site for still another university in Escambia County.
